We are pleased that you can spare some time to have a look [Field-Service-Lightning-Consultant Reliable Test Cram](#) for your reference about our SAP SAP Certified Application Associate - SAP Ariba Procurement exam simulator online, Our company attaches great importance to overall services, if there is any problem about the delivery of C_ARP2P_2108 exam materials: SAP Certified Application Associate - SAP Ariba Procurement, please let us know, a message or an email will be available.

NEW QUESTION: 1

SCENARIO

Please use the following to answer the next question:

Javier is a member of the fitness club EVERFIT. This company has branches in many EU member states, but for the purposes of the GDPR maintains its primary establishment in France. Javier lives in Newry, Northern Ireland (part of the U.K.), and commutes across the border to work in Dundalk, Ireland. Two years ago while on a business trip, Javier was photographed while working out at a branch of EVERFIT in Frankfurt, Germany. At the time, Javier gave his consent to being included in the photograph, since he was told that it would be used for promotional purposes only. Since then, the photograph has been used in the club's U.K.

brochures, and it features in the landing page of its U.K. website. However, the fitness club has recently fallen into disrepute due to widespread mistreatment of members at various branches of the club in several EU member states. As a result, Javier no longer feels comfortable with his photograph being publicly associated with the fitness club.

After numerous failed attempts to book an appointment with the manager of the local branch to discuss this matter, Javier sends a letter to EVETFIT requesting that his image be removed from the website and all promotional materials. Months pass and Javier, having received no acknowledgment of his request, becomes very anxious about this matter. After repeatedly failing to contact EVETFIT through alternate channels, he decides to take action against the company.

Javier contacts the U.K. Information Commissioner's Office ('ICO' - the U.K.'s supervisory authority) to lodge a complaint about this matter. The ICO, pursuant to Article 56 (3) of the GDPR, informs the CNIL (i.e.

the supervisory authority of EVERFIT's main establishment) about this matter. Despite the fact that EVERFIT has an establishment in the U.K., the CNIL decides to handle the case in

accordance with Article 60 of the GDPR. The CNIL liaises with the ICO, as relevant under the cooperation procedure. In light of issues amongst the supervisory authorities to reach a decision, the European Data Protection Board becomes involved and, pursuant to the consistency mechanism, issues a binding decision.

Additionally, Javier sues EVERFIT for the damages caused as a result of its failure to honor his request to have his photograph removed from the brochure and website.

Assuming that multiple EVETFIT branches across several EU countries are acting as separate data controllers, and that each of those branches were responsible for mishandling Javier's request, how may Javier proceed in order to seek compensation?

- A.** He will have to sue each EVETFIT branch so that each branch provides proportionate compensation commensurate with its contribution to the damage or distress suffered by Javier.
- B.** He will have to sue the EVETFIT's head office in France, where EVETFIT has its main establishment.
- C.** He will be able to sue any one of the relevant EVETFIT branches, as each one may be held liable for the entire damage.
- D.** He will be able to apply to the European Data Protection Board in order to determine which particular EVETFIT branch is liable for damages, based on the decision that was made by the board.

Answer: B

NEW QUESTION: 2

会社は、生産とテストを含むAWSの中で複数の環境にアプリケーションを配備しました。会社は生産とテストのために別々の口座を持っています、そして、ユーザーは必要に応じてチームメンバーまたはサービスのためにさらなるアプリケーションユーザーをつくるのを許されます。セキュリティチームは、セキュリティ資格情報の集中管理と環境間のパーミッションの管理を改善し、生産とテストの間のより良い分離のためのオペレーションチームを求めている。

以下のオプションのどれが、この目標を最も確実に達成するでしょうか？

- A.** Modify permissions in the production and testing accounts to limit creating new IAM users to members of the Operations team. Set a strong IAM password policy on each account. Create new IAM users and groups in each account to limit developer access to just the services required to complete their job function.
- B.** Create all user accounts in the production account. Create roles for access in the production account and testing accounts. Grant cross-account access from the production account to the testing account.
- C.** Create a new AWS account to hold user and service accounts, such as an identity account. Create users and groups in the identity account. Create roles with appropriate permissions in the production and testing accounts. Add the identity account to the trust policies for the roles.
- D.** Create a script that runs on each account that checks user accounts for adherence to a security policy. Disable any user or service accounts that do not comply.

Answer: C

Explanation:
