NEW QUESTION: 3
You are managing a site collection in a SharePoint farm.
You need to configure the minimum level of permissions necessary for users to manage lists in the site
collection.
What permission level should you configure?
A. Edit
B. Limited Access

C. Create
D. View Only
Answer: B
Explanation:
The Limited Access permission level is designed to be combined with fine-grained permissions to give users access to a specific list, document library, item, or document, without giving them access to the entire site. However, to access a list or library, for example, a user must have permission to open the parent Web site and read shared data such as the theme and navigation bars of the Web site. The Limited Access permission level cannot be customized or deleted.
