NEW QUESTION: 1

During implementation, you created a risk object and successfully mapped it to a control object. The client's Risk Owner is able to access the risk but not the control.

Why did this happen?

- A. The Risk Administrator needs to run the synchronize jobs to populate the mapping.
- B. The Risk Owner role does not have the right privileges.
- C. The risk and control objects are inactive and need to be made active.
- D. The Risk Owner account is inactive.

Answer: B

NEW QUESTION: 2

Improving value through continued analysis of the cost components and substituting products with more cost effective elements while examining lifecycle cost is most related to which supplier collaboration process?

- A. Inventory or asset management
- B. Make versus buy analysis
- C. Specification rationalization
- D. Demand management

Answer: C

Explanation:

Improving value through continued analysis of the cost components and substituting products with more cost effective elements while examining lifecycle cost is most related to the specification rationalization part of the supplier collaboration process. Determining which products and services and organization should manufacture or provide in-house as opposed to purchasing them from outside sources is most related to make versus buy analysis part of supplier collaboration process.

Inventory or asset management part of the supplier collaboration process seeks to integrate the supply chain and empower suppliers to manage replenishment. The proactive compilation

of requirements including customers and information regarding demand such as, sales and marketing and the organizations capabilities from the supply side as well as the development of a consensus regarding the ability to match the requirements and capabilities impose for the supply chain are referred to as the demand management.

NEW QUESTION: 3

A vSphere administrator is trying to publish a content library.

How is the Publish this content library externally option made visible in the settings?

- A.** Use a library that is not already published.
- B.** Enable automatic synchronization.
- C.** Choose a library that is not subscribed.
- D.** Select the authentication check box.

Answer: A
