Needn't open our page repeatedly, you can buy all three versions one time that means you own all versions at once just click all the boxes before OSP-002 PDF torrent.

In addition, you are advised to invest on yourselves, SWREG will cost extra tax such as intellectual property taxation, If the OSP-002 practice dump is coming and the time is tense, it is better to choose our OSP-002 vce dumps.

NEW QUESTION: 1

You are developing an application that uses a third-party JavaScript library named `doWork()`. The library occasionally throws an "object is null or undefined" error with an error code of -2146823281.

The application must:

Extract and handle the exceptions thrown by `doWork()`

Continue normal program execution if other exceptions occur

You need to implement the requirements.

Which code segment should you use?

A. Option A

B. Option B

C. Option C

D. Option D

Answer: C

Explanation:

Explanation/Reference:

* The `try` statement lets you test a block of code for errors.

The `catch` statement lets you handle the error.

The JavaScript statements `try` and `catch` come in pairs:

```
try {  
  Block of code to try  
}  
catch(err) {  
  Block of code to handle errors  
}
```

* `object.number [= errorNumber]`

Returns or sets the numeric value associated with a specific error. The `Error` object's default property is `number`.

* Example:

The following example causes an exception to be thrown and displays the error code that is derived from the error number.

```
try  
{
```

```
// Cause an error.  
var x = y;  
}  
catch(e)  
{  
document.write ("Error Code: ");  
document.write (e.number & 0xFFFF)  
document.write ("<br />");  
document.write ("Facility Code: ")  
document.write(e.number>>16 & 0x1FFF)  
document.write ("<br />");  
document.write ("Error Message: ")  
document.write (e.message)  
}
```

The output of this code is as follows.

Error Code: 5009

Facility Code: 10

Error Message: 'y' is undefined

Reference: JavaScript Errors - Throw and Try to Catch; number Property (Error) (JavaScript)

NEW QUESTION: 2

- A. Option B
 - B. Option E
 - C. Option A
 - D. Option C
 - E. Option D
- Answer: A,D**
